

# COLVILLE COMMUNITY FACILITIES PROJECT: 2017 Review

The Management Team (MT) continue to work to achieve the development of this project and would like to thank:

**Our amazing communities:** for your engagement with our consultation processes and willingness to share your stories

**Trust Waikato:** for initial funds to support the Feasibility Study and funds for the CCHT Manager (who supports the project)

**Department of Internal Affairs:** funding the CSSC Community Development Worker (who supports the project)

**Working Together More Fund-** majority of funds for our Feasibility Study

**TCDC:** Economic Development Grant towards a marketing plan, and for their ongoing engagement

**Coromandel Colville Community Board-** ongoing support and engagement

**BECA:** 16 hours pro-bono work to help with our Feasibility Infrastructure Process.

**Len Reynolds Trust:** for funds to support Community Development Worker hours over 2018-2020, which include supporting the CCFP.

**Feasibility Study:** our feasibility study concluded that *“the CCFP is a feasible solution to the identified demographic and isolation needs in the area”*, that *“there is significant support for the project from the community and other stakeholders”*, and that *“the Trusts have the capacity to undertake this Project”*.

**Project Site:** With the floods that occur around Colville and the increasingly rising high tides in Colville Bay, the MT has been very conscious of seeking a site that is future proof. We thank all those who have worked with us in this process, including land owners and TCDC. We have now identified a preferred site and are exploring possibilities for purchase. We will be seeking further donations to support this... watch out for our campaign and please donate to help us support our communities.

**Submission to Council:** A short overview of the CCFP has been presented to the TCDC Mayor and Councillors, along with a brief submission requesting formalised support.

**Moving into the Future:** In December, Trustees from Colville Community Health Trust (CCHT) and Colville Social Service Trust (CSSC) meet to explore structures regarding the long-term ownership and management of CCFP assets. Thanks to Community Waikato for facilitating in this process, and to Ākina Foundation for their support.
